You MUST have a full region to purchase a scenic region (intro regions do not qualify). Scenic Regions are not eligible for quantity discounts <u>Details:</u> -Only region owner or partner can rez objects -No estate manager -You cannot rent them out for business/residential use. -They may only be used for "scenery" to the existing regions. -No Skyboxes or platforms below 512m	5,000	\$5.00
Waterway Connection	Prim Allotment	Monthly Cost
Waterway connections are a means to allow residents who wish to connect to the Utopia Skye – Skye Straits with their regions. By choosing this option you understand that we are only able to guarantee a connection to at least one side of a strait. This is a monthly cost, per REGION/per VAR that you connect to the straits. You must also agree to allow both avatar and object entry, so as not to disturb the seamless nature of the waterways. Additionally, on any water connected region (including all VAR regions), platforms & skyboxes cannot be lower than 512m . There will be connections that by their placement and design will connect to multiple waterway regions. This is unavoidable. We will do our best to place these in as fair a fashion as possible but the "first come first served" rule is apropos here.		\$3.00
